ABOUT ME

Since 2012, I have been involved in web development, focusing on both front-end and back-end development. Throughout my career, I have worked on a range of projects, such as wifi hotspots, payment gateways, online refund systems, eCommerce platforms, and Software as a Service (SaaS) applications. Some of these projects were freelance gigs, while others were full-time project-based roles.

SKILLS

- **BackEnd**

- PHP : Core PHP (OOP), Laravel (elastic search, redis), Livewire, Lumen, Code Igniter
- Database: MySQL, PostgreSQL

- **FrontEnd**

- Styling: CSS / SCSS / SASS, Tailwind, Bootstrap
- Javascript: JQuery, Vue.js/Vuex, Nuxt.js, Node.js, Alpine.js
- CMS: WordPress

- **Others**

- Project Management Tools: Trello, Jira, Teamwork
- Tools: Git / Git Flow, NPM, Command Line / SSH, SEO
- OS: Linux (Ubuntu, Centos, Amazon Linux, RHEL)
- Hosting / Deployment: Envoyer, AWS, Digital Ocean, Namecheap, Hostinger
